LOCKSMITH AND KEYING CHARGES

LOCKSMITH & KEYING CHARGES

PLEASE NOTE: When duplicating a customer's masterkey for an existing key system, we require written authorization from the owner for our records.

When keying a lock to a customer's key, keys *ARE NOT* furnished unless specified otherwise – additional charges would apply.

When keying any pin tumbler lock to a specific key number, there is an extra charge of \$2.25 for cutting a key by code number (see 061-1010 below.)

Masterkeying charges for non-high security cylinders include 2 keys per new symbol. When masterkeying high security cylinders (Corbin-Russwin, Kaba Gemini, Kaba Peaks, and Schlage Primus), we charge for each key.

KEYS			KEYING CHARGES

*Includes GGMK, GMK, when applicable.

**Includes stamping key symbol.

Baldwin Appendix-1

HANDING OF DOORS

PROCEDURE FOR CORRECTLY DETERMINING THE HAND OF DOOR

The Locks section of our catalog is intended to provide an all-inclusive overview of our extensive stock and special order capabilities.

Information provided below is non-manufacturer specific. Please see individual manufacturer sections for further details.

Illustrated and described below are the standard procedures used throughout the finish hardware industry.

To correctly specify the proper hand of a door consider the door in its closed position. Then, looking at the door from the exterior (or key side) the hand is determined as follows:

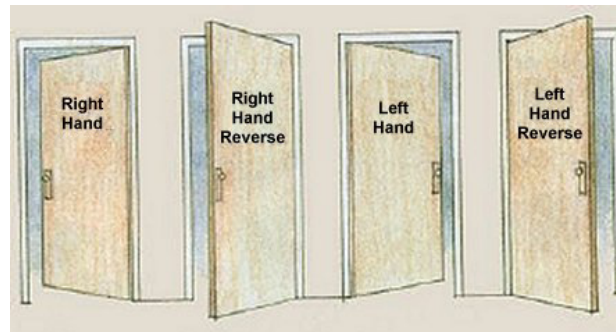

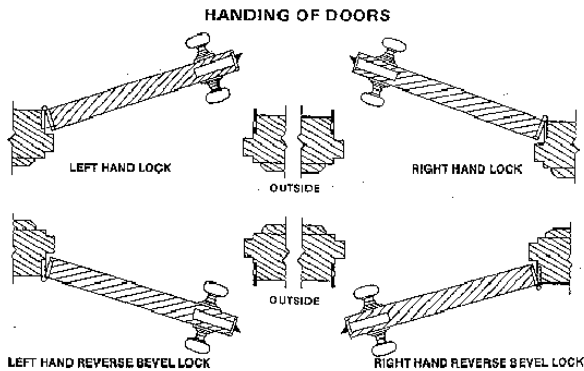

*A door that opens inward and is hinged on the right hand side is a **Right Hand Door** (Symbol RH).*

*A door that opens inward and is hinged on the left hand side is a **Left Hand Door** (Symbol LH).*

*A door that opens outward and is hinged on right hand side is a **Right Hand Reverse Bevel Door** (Symbol RHR).*

*A door that opens outward and is hinged on the left hand side is a **Left Hand Reverse Bevel Door** (Symbol LHR).*

All Cylindrical Knob Locks are reversible. However, on all Pin Tumbler Locks, the Hand should be specified so that the locks can be correctly assembled by the factory or distributor to insure the keyholes being in an upright position when installed on the job. On all locks for Reverse Bevel Doors, if the finish called for is different on each side of the lock the Hand should be specified so that the Face and Strike furnished with the lock will match the outside finish.

Baldwin Appendix-2

BALDWIN SPECIFIC FINISH SYMBOLS

PLEASE CALL FOR AVAILABILITY - NOT ALL FINISHES ARE AVAILABLE THROUGHOUT THE BALDWIN LINE

BALDWIN FINISH SYMBOLS

IMAGES FINISHES

<u>CODE</u>	<u>FINISH DESCRIPTION</u>
003	POLISHED BRASS WITH LIFETIME FINISH (Highly polished brass and lacquered)
030	POLISHED BRASS (Highly polished brass and lacquered)
031	POLISHED BRASS, NO LACQUER (Highly polished brass, not lacquered)
033	VINTAGE BRASS
038*	DISTRESSED BRASS
040	SATIN, BRASS (Satin polished and lacquered)
050*	SATIN BRASS AND BLACK
055	POLISHED NICKEL WITH LIFETIME FINISH
056	SATIN NICKEL WITH LIFETIME FINISH (Oxidized, relieved and lacquered)
060*	SATIN BRASS AND BROWN (Oxidized, relieved and lacquered)
102*	OIL RUBBED BRONZE (Dull, slightly oxidized, oil-rubbed)
112*	VENETIAN BRONZE (Relieved and matte lacquered)
140	BRIGHT NICKEL PLATED (Polished brass, nickel plated)
150	SATIN NICKEL PLATED (Satin polished brass, nickel plated and lacquered)
151*	ANTIQUENICKEL, DULL (Nickel plated brass, oxidized, relieved and lacquered)
190	SATIN BLACK (Black lacquer over sanded brass)
260	POLISHED CHROMIUM (Highly polished, plated on brass)
264	SATIN CHROMIUM (Satin polished, plated on brass)
320	BRIGHT STAINLESS STEEL (Highly polished)
324	SATIN STAINLESS STEEL (Satin polished)
402*	DISTRESSED OIL RUBBED BRONZE
412*	DISTRESSED VENETIAN BRONZE
432	RUSTIC BRONZE
452*	DISTRESSED ANTIQUE NICKEL (matte lacquer)

*IMPORTANT: Product finishes which are RELIEVED (Finish Nos. 038, 050, 060, 112, 151, 412, 452) may vary in luster hue and appearance as a result of hand-crafted variances in the final finishing step.

GLOSSARY OF TERMS

RECOMMENDED BALDWIN NOMENCLATURE

GLOSSARY OF LOCKSET TERMS

- Backset** The horizontal measurement from the edge of the door to the center point of the 2-1/8" holes through the door.
- CTC (center-to-center)** The vertical measurement from the center point of the bottom through hole to the center point of the top through hole. Applicable for handlesets only.
- Conversion Kit** Allows flexibility to adapt handlesets and deadbolts to fit 2" or 2-1/4" thick doors.
- Cylinder Collar Spacer** For use with deadbolts to accommodate 1-3/8" thick doors.
- Deadbolt** Locking mechanism. Metal bolt which slides from door into frame preventing the door from opening. Security feature for exterior doors.
- Double Cylinder Entrance Handleset** Deadbolt operated by key from either side; no turn knob. Frequently used when door has glass panes.
- Edge Bore** The hole drilled into the edge of the door to hold lock or latch.
- Emergency Exit Entrance Set** Handleset which retracts the latchbolt and deadbolt simultaneously when the inside lever is turned. Provides quick exit in emergency situations.
- Escutcheon** Decorative backplate, generally larger than 6" in height, on which a knob, lever, or pull is mounted.
- Face Bore** The hole drilled through the door, front to back, to hold knob or lever.
- Finish** Refers to the color and protective coating of the item.
- Full Dummy** Décorative handleset, lever, or knob used on the non-working door of a double door unit. Full dummy trim is on both sides of the inactive door.
- Half Dummy** A single knob or lever for a non-latching door. Half dummy is only used on outside of the door. Most commonly used for a push/pull application or on a closet door that does not have a latch.
- Hand of Door** The hand of the door is determined by standing on the outside of the door.
Left Hand Door—If hinges are on the left side of the door when viewing from the outside, door is left handed.
Right Hand Door—If hinges are on the right side of the door when viewing from the outside, door is right handed.
- Keyed Entry Lockset** Entrance lockset which is locked by a key from exterior and thumbturn from interior. Can be either a knob or lever.
- Latch Bolt** The bolt that retracts when either the knob or lever is turned, or when the thumbpiece which operates the handleset is pushed down.
- Passage Function (Hall/Closet)** Knob or lever set most commonly used in hallways where a locking feature is not required.
- Privacy Function (Bed/Bath)** Knob or lever set most commonly used in bathroom or bedroom; can be locked from the inside with a push button emergency release feature.
- Rose** Decorative backplate for knobs and levers, often round- or oval-shaped.
- Sectional Trim** Two-piece door trim: decorative pull and matching cylinder escutcheon.
- Single Cylinder Entrance Handleset** Key operates deadbolt from outside; turnpiece operates deadbolt from the inside.
- Stile** Horizontal measurement from the edge of the door to the edge of the bead or glass.
- Style** The appearance of the handleset, deadbolt, knob or lever design.
- Thumbpiece** Component located on the outside of a handleset which, when depressed, retracts the latchbolt.
- Transmission Case** Round housing mounted on the back of the outside handle. Converts up and down motion of thumb piece to a twisting motion so latch can be operated.
- Turnpiece** Component located on inside of door which, when turned, retracts deadbolt. Used only on single cylinder operations.

DEADBOLTS, ESTATES

BALDWIN ESTATES DEADBOLTS

Single Cylinder, Contemporary Design, 1 5/8" Bore

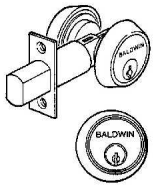

Case is formed of heavy gauge steel for strength and assures solid fit in door preparations. Most interior working parts are made of solid brass for maximum strength and smooth operation. The non-handed design facilitates specification and installation. 1" throw. Adjustable backsets. Low profile design has 1/2" cylinder projection. Meets ANSI Grade 1 standards. For use on 1 3/4" doors. For 1 3/8" doors, use No. 8097 spacers. For 2" to 2 1/4" doors, use No. 8098 conversion kit. Items marked F.O.O. - Allow 4 to 6 weeks for delivery.

LOCKS, ESTATE MORTISE LOCK CASES

BALDWIN ESTATE MORTISE LOCKS

6021LS Residential Entrance, Grip Handle x Lever, 2 3/4" B.S

**2.75" Backset Mortise Locks - Heavy Duty Functions
Residential Entrance - Emergency Egress**

Latch bolt by thumb piece outside and knob inside, except when thumb piece is locked by stop in front; then latch bolt by key outside and knob inside. Dead bolt by key outside and turn piece inside. When dead bolt is thrown, stop is automatically activated making outside thumb piece rigid. Inside knob retracts latch and dead bolt simultaneously but DOES NOT free outside thumb piece. 1" throw dead bolt with saw-proof inserts is standard equipment. When extended, dead bolt deadlocks latch bolt. Packed 1 per carton. Weight 3 lbs. NOTE: 6021-LS is designed to take a lever on the inside. LS = Lever Strength.

LOCKS, ESTATE MORTISE LOCK CASES

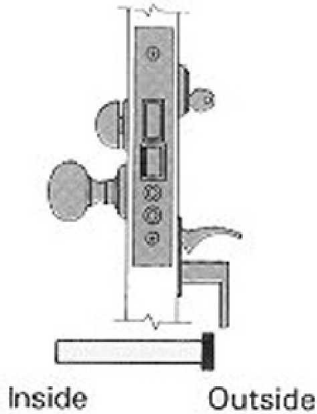

BALDWIN ESTATE MORTISE LOCKS

6075 Residential Entrance, Knob x Knob, 2 3/4" B.S.

**2.75" Backset Mortise Locks - Heavy Duty Functions
Entrance - Emergency Egress**

Latch bolt by knob from either side, except when outside knob is locked by stop in front; then latch bolt by key outside and knob inside. Dead bolt by key outside and turn piece inside. When dead bolt is thrown, stop is automatically activated making outside knob rigid. Inside knob retracts latch and dead bolt simultaneously but DOES NOT free outside knob. Federal Specification Equivalents: Government Type: 86A ANSI Series: 1000-F12/F20.

LOCKS, ESTATE TRIMS - LEVER DESIGNS

BALDWIN ESTATE FORGED BRASS LEVER DESIGN

5103 Lever Only

Levers are not reversible unless ordered in complete pairs. When ordering single lever handle as dummy trim always specify hand of lever. Levers are designed for use with tubular latch sets and/or mortise locks. Most lever designs are interchangeable with other roses and accessories unless otherwise noted. Operating trim consists of one pair of levers with roses, spindle and fasteners. Dummy trim consists of one lever with rose, dummy spindle and No. 5098 plate. Full dummy trim consists of operating trim and No. 5098 plate. Other designs and finishes F.O.O. **ALL LEVERS, ROSES AND LATCHBOLTS MUST BE ORDERED SEPARATELY.** F.O.O. Items - Allow minimum 8 weeks for delivery.

BALDWIN IMAGES STRIKES

Extended Lip Strikes for Latch & Dead Bolt

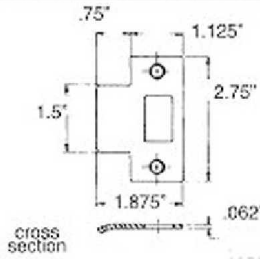

Size: 1.25" x 4.875" x Specified Lip to Center. Thickness: .093", brass material. Screws: Furnished with No. 12 combination wood/machine screws, finished to match. Template: Designed to fit metal/wood frames prepared in accordance to ANSI A115.1/A115.11. Features: Designed for use with locks installed on special door and frame conditions. Supplied with a curved lip only. ALWAYS SPECIFY HAND OF DOOR AND REQUIRED LENGTH. Dimensions: Available in the following Lip to Center lengths only: 1.625", 1.875", 2.25", 3". Important: Lip to Center length determined by the following formula: Door thickness divided by 2 + .375" = Lip to Center Length. Round to closest size. Ordering example: 6339-030-L178 = Strike x Left Hand x 1 7/8" L/C. Can be used with Estate Collection.
