MISCELLANEOUS INFORMATION & OPTIONS FOR CORBIN-RUSSWIN

DC2000 & DC3000 CORBIN DOOR CLOSERS

FEATURES:

Spring Power: DC2200 closers: non-sized; fully adjustable 1 through 6. DC2400 closers: sizes 1 through 6; half-size adjustability. DC2600 closers: sizes 1 through 6; non-adjustable. DC3200 closers: non sized; fully adjustable 1 through 6.

Handing: Non-handed.

Body: Cast iron case with seamless one-piece forged steel spring tube.

Arm: Standard: heavy duty forged steel. Optional arms available.

Spindle: Triple heat treated steel.

Piston: Precision machined, heat treated steel.

Springs: Double heat treated steel, tempered.

Valves: Latching speed valve standard. Closing speed valve standard. Multiple backcheck location valve and backcheck intensity valve with safety feature standard on DC2200 and DC2400 closers; optional on DC2600 closers. Delayed action valve optional on DC2200, DC2400 and DC2600 closers. Delayed action preset for 20 seconds; adjustable up to 60 seconds. Effective from maximum opening to 70° for all mountings. Backcheck intensity valve with safety feature standard on DC3200 closers.

Seals: "O" rings.

Fluid: Standard: high lubricity hydraulic fluid. Optional: extreme temperature fluid; eliminates valve readjustment when temperatures vary more than 50°F.

Degree of Opening: Up to full 180° opening standard for regular, top jamb and parallel arm mountings.

Power Adjustment Arm Bracket: 15% adjustment standard.

Cover: Standard: non-metallic full cover. Optional: slim cover or full metal cover.

Mountings: Standard on DC2000: regular and top jamb. Standard on DC3000: regular arm. Optional mountings available.

Mounting Bracket: QUIK-INSTALL™ mounting bracket standard.

Fasteners: Standard: combination screws for wood and metal doors. Optional: sex nuts and bolts (SNBs) or security torx machine screws.

Corrosion Protection: Painted protective coating on all metal surfaces for use in corrosive environments. Optional on all closers.

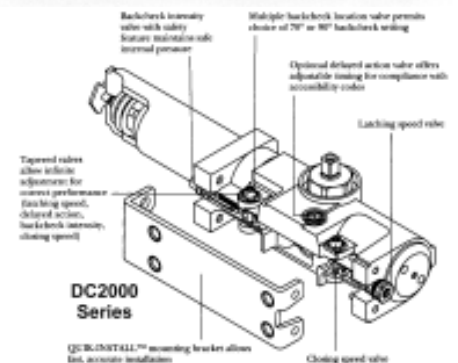

Warranty: DC2000: Ten-year limited. DC3000: Five-year limited.

ANSI: Meets A156.4, Grade 1. Meets A117.1 Accessibility Code

Federal: Meets FF-H-121D, Type 3000.

ULIULC: Listed for fire and cycle requirements.

ADA: Complies with Americans with Disabilities Act.

Mounting

MISCELLANEOUS INFORMATION & OPTIONS FOR CORBIN-RUSSWIN

GLOSSARY OF TERMS FOR DOOR CLOSERS

Arm: The part of a closer that connects the body to the door or frame.

Backcheck: Slows a door during the opening cycle, by providing cushioned resistance to a forceful opening. Designed to protect people and objects behind the door and to prevent damage to the closer, hardware, and wall. Intensity can be increased or decreased. Not intended to act as a stop.

Backcheck Location: The point (approximately 70°) in the opening cycle where backcheck takes effect.

Closing Speed: the speed at which a door swings from the open position to within a few degrees of latching. See latching speed.

Corrosion protection: Additional painted covering of all external parts to deter oxidation and corrosion.

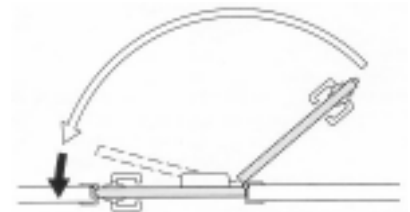

Delayed Action: Slows door closing speed between maximum opening and approximately 70°. Often specified to meet barrier-free codes which require delayed closing.

Door Stop: A device to stop the swing of a door.

Extreme Temperature Fluid: Special hydraulic fluid which allows full valve function without readjustment when temperature varies by 50°-70° F.

Hold-Open: Maintains door at a particular degree of opening. A mechanical hold-open may not be used on labeled fire doors, which must be self-closing.

Latch Speed: The speed of the door during the last few degrees of closing. Allows latching and prevents slamming.

Mounting: The method by which a closer is attached to the door and frame.

Multiple Backcheck Location Valve: Unique valve which can change where backcheck occurs.

Non-Sized Closer: A closer whose spring tube design allows full adjustment of the spring power size from 1 through 6.

Pressure Relief Backcheck Intensity Valve: A valve which reduces internal pressure when the closer is subjected to forceful opening. Helps prevent closer life.

QUIK-INSTALL™ Mounting Bracket: Unique bracket which simplifies installation and minimizes installer fatigue.

Sex Nuts & Bolts (SNBs): Throughbolts required for all non-steel-reinforced fire doors, and recommended for non-reinforced wood and mineral core doors.

Sized Closer: A closer whose spring design allows for a fixed spring power size 1 through 6.

Spring Power: A measurement of closing force, or the ability to overcome draft, air pressure, weight or other resistance to door closing.

Star Punch: An eight-sided pocket hole in the closer arm, permitting spindle pre-loading. Provides full functioning of backcheck and delayed action valves, and additional closing force, on parallel arm mountings.

Universal Mounting: The ability of a closer to accommodate either hand for regular, top jamb or (using a bracket) parallel arm mounting.

DOOR CLOSERS, COMMERCIAL

CORBIN DC2000 DOOR CLOSERS

Regular or Top Jamb Mounting

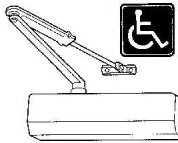

Built in feature allows spring power adjustments in the field to accommodate many door sizes reversible except fusible link. All valves completely sealed to prevent tampering. Full rack and pinion construction. Features adjustable backcheck intensity valve with safety feature. Each carton contains mounting for regular or top jamb mounting. Conforms to Fed. Spec. 3001-3009-3230MOD. Meets ANSI Grade 1. C02011 w/PT4CEPT4D. Finishes stocked and priced are 689 (sprayed aluminum), 690 (to match 10B) and 691 (sprayed bronze). 10 year warranty, ADA approved. Furnished with Sex Nuts and Bolts (SNB - option M54) and Full molded plastic cover M72.

Regular Arm: Used with regular arm mounting (pull side) and top jamb mounting (push side). Standard on DC2200 closers.

CORBIN DC3000 DOOR CLOSERS

Regular Arm with M72 Full Cover

The Marathon™ Series. Universal - non-handed. Rugged cast iron alloy case. Full rack and pinion. Hardened steel spindle. Music wire springs. "O" ring-type oil seals. Needle roller bearings. 5 year warranty. ADA approved. Multi-sized for virtually all applications, adjustable spring power, sizes 1 thru 6. Adjustable backcheck intensity valve with safety feature takes effect at 70° on regular closer and 140° on parallel arm closers. All stocked with full cover M72, and SNB M54. Conforms to handi-capped code requirements. U.L. Listed for CLA and lesser doors. Listed for ANSI 156.4, Grade 1. Weight 11 lbs. Stocked in 689 (Old SBL - Aluminum), 690 (LBL - to match US10B), 691 (DBL - Dull Bronze Lacquer). To order the **Parallel Arm Adapter Plate** separately, see Corbin Door Closer Parts section.

Regular Arm: Used with regular arm mounting (pull side). Standard on DC3200 closers.

FLOOR CLOSERS, CENTER HUNG

RIXSON CENTER HUNG FLOOR CLOSERS

For 3 ft 6" Interior Doors, 2 ft 10" Exterior Doors

30/40 Series floor closers are double acting and non-handed. They may not be used on labeled doors and frames. Maximum degree of opening 103°. Two closers in one-two sets of plungers and springs for positive door control. Available (NHO) non-hold open or AHO at 90° (door swings to 95°) to 100° (door swings to 103°). Steel cement case. Horizontal adjustment; adjusting screw on arm makes it possible to align door horizontally toward or away from frame and lock in desired position. Vertical adjustment: Door may be raised or lowered, through the use of shims. Adjustable spring tension and closing speed. Specify W30/W40 model for wood doors. To meet ANSI A1 17.1 required for physically handicapped access, prefix 'PH'. Cold weather fluid available for temperatures from +1 50F to -35°F. Specify 'CWF'. Sealed closer available to prevent moisture from entering case-Prefix "SC. Extended spindles 1/2" increments up to 2". Available for floor plate or threshold application. Standard top pivot: 340.

ALL FACTORY ORDER ONLY - Allow 10 days.

Note: For interior doors add prefix "PH" to manufacturer number. Meets ADA requirements.

Note: Floor closers supplied with cement box and cover plates. If threshold required see Threshold Section - omit cover plate.

FLOOR CLOSERS, OFFSET

RIXSON OFFSET FLOOR CLOSERS

Non Hold Open, Positive Stop 105 Degree

3/4" OFFSET HUNG FLOOR CLOSERS - EXTERIOR OR INTERIOR DOORS

Weight to 450 lbs. Sizes up to 4'0" x 8'6"

All offset hung floor closers are single acting and handed. 3/4" offset floor closers locate the pivot point 3/4" from the heel edge of the door and 3/4" from the face of the door. Door edges must be beveled 1/8" in 2". Frame doorstop must be provided at door-closer position. For door sizes greater than shown below, consult the factory for suggested application. Available in all standard architectural finishes. NOTE: Floor closers supplied with cement box and cover plates. If threshold is required, see Threshold section - omit cover plate.

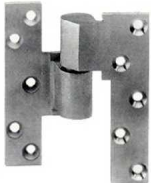

Available (NHO) non-hold open, (AHO) automatic hold-open or (SHO) selective hold-open at 85, 90, 95 or 105 degrees. Cyclocac cement case. Separate independent valves for closing, latch and back check adjustments. Built-in positive dead stop prevents door from swinging beyond the desired opening degree. Vertical door adjustment. Adjustable spring tension. Models available to meet ANSI A117.1 requirements for physically handicapped access-prefix "PH". Delayed action option available - prefix "DA". Cold weather fluid available for temperatures from +15F to -35F; specify "CWF". Sealed closer available to prevent moisture from entering case - prefix "SC". Extended spindles available in 1/2" increments up to 2". Available for floor plate or threshold application (floor plate shown). Recommended intermediate pivot: M19.

ALL FACTORY ORDER ONLY - Allow 10 days for delivery

Note: For interior doors add prefix "PH" to manufacturer number. Meets ADA requirements.

HINGES, SPRING, SINGLE ACTING

BOMMER SINGLE ACTING SPRING HINGES

Full Mortise - Square Corner

UL Listed for fire door applications. Non-handed. Steel material. Easily adjusted spring tension. Screw hole pattern conforms to ANSI specifications. Pivot point aligns with hinges of the same size. Packed 1 pair per box with screws. Other finishes available F.O.O. Half Mortise type No. 4313 available F.O.O.

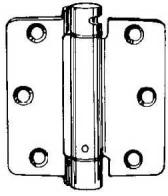

Minimizes cost of installing a door closing device on industrial, commercial, institutional and residential applications. Used to convert doors to self-closing in existing buildings. For use in hotels, motels, apartments, dormitories, residences, etc., where doors are required to be self closing (always verify local fire code requirements).

For labeled doors 3'0" x 1 3/4".
 For 70 lb. doors use 1 spring hinge, 2 BB. butt hinges.
 For 115 lb. doors use 2 spring hinges, 1 BB. butt hinges.
 For 150 lb. doors use 3 spring hinges.

HINGES, SPRING, DOUBLE ACTING
BOMMER DOUBLE ACTING SPRING HINGES

Half Surface, 3/4" - 1" Door Thickness, 5 ft 0" Door Height

Permits doors to open in either direction and automatically return to closed position. Provide maximum protection for doors subject to normal abuse of lift trucks, due to resiliency of spring support and shock absorbing reaction of flexible mounting. Adjustable spring tension permits power and speed adjustment of each size spring hinge. No hanging strip required.

It is advisable to use three hinges on a door. The center hinge should be installed as close as possible to the top hinge for maximum support. Hinge capacity decreases as door height decreases. Use the largest size hinge that thickness of the door will permit, or 3 hinges per door. NEVER USE over 3 or 4 holes tension on spring.

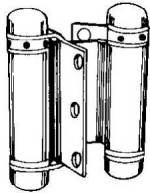

HALF SURFACE

Door flange is surface applied to face of door. Jamb flange is surface applied to jamb. Do not use on doors with hinge edge beveled. Steel material, non-template non-handed, all wood screws. For Veneer and Lightweight doors. Pack 1 pair per box, with screws. (ANSI K81131). F.O.O. items-- Allow 4 weeks.

DELTANA SPRING HINGE

Double Action, Floor Mnt.

This is a floor mounted double-action spring hinge with solid brass cover plates with high-quality plating. They feature heavy steel mechanicals and ball bearings for smooth operation. The hinge has a weight capacity of 90 pounds. These double-action hinges include all trim plates and fasteners plated to your desired finish. Top pivot is also included with this hinge. These hinges are typically used on kitchen doors to permit hands free entry and exit. Push plates and kick plates are typically used on these doors to protect the finish of the door. For safety, a glass vision panel is recommended on the door for obvious reasons. These hinges are recommended for 1-3/4" thick doors, however are narrow enough to fit 1-3/8" thick doors.

PRESSURE GAUGES, DOOR

HMC DOOR PRESSURE GAUGE

MEETS ADA REQUIREMENTS

1. The Americans with Disabilities Act requires that both interior and exterior doors of a building be handicapped accessible.
2. Door Opening Force (4.13.11 ADAAG)
 - Exterior hinged doors: (Reserved).
 - Interior hinged doors: 5-lb. (22.2N)
 - Sliding or folding doors: 5lb (22.2N)

Automatic/power Assisted Doors: (4.13.12) Such doors shall not open to back check faster than 3 seconds and shall require no more than 15 lbs. (66.6N) to stop door movement. If a power-assisted door is used, its door-opening force shall comply with 4.13.11 and it's closing shall conform to the requirements in ANSI A156.19-1984.

OPERATION INSTRUCTIONS

- A. Set the top (small) "o" ring located on the plunger rod on zero, down against the instruments flange.
- B. Holding the instrument firmly, press slowly against a given door at a point approximately handle-high and 30 inches toward the handle from the door's hinges.
- C. Read the amount of force required to open the door on the plunger scale closest to the bottom of the small "o" ring.

CORBIN-RUSSWIN MORTISE STYLE EXIT DEVICES

FEATURES AND ORDERING INFORMATION

**MORTISE STYLE EXIT DEVICES
ED5600 Passage, Dummy and
Classroom
and ED5657 Nightlatch**

MORTISE EXIT DEVICE INFORMATION

FEATURES AND ORDERING INFORMATION

- Handing:** Device field reversible. Non handed trim.
- Bar Length:** Easily field cut to size. Standard 36" bar. Optional 48" bar.
- Door Thickness:** 1 3/4" standard. Optional: 2" or 2 1/4"
- Stile:** Minimum width 4 1/2".
- Projection:** 3 1/4" active, 2 3/4" dogged.
- Latchbolt:** 2 piece mechanical, 3/4" throw, stainless steel with antifriction insert & auxiliary deadlocking latch.
- Materials:** Heavy duty cold forged steel chassis; heavy gauge steel mechanisms, electroplated for corrosion resistance; finished parts are brass, bronze or stainless steel; stainless steel springs, nylon bearings.
- Dogging:** Standard: single point 1/4 turn hex key dogging. Other options available.
- Fasteners:** Standard on ED5600: machine screws. Optional on ED5600: sex nuts & bolts; specify M54. Standard on ED5600A: sex nuts & bolts.
- Strike:** Non-handed, ANSI curved lip standard, 4 7/8" x 1 1/4" x 1 1/4" lip to center. Optional strikes available.
- Functions & Trims:** Throughbolted lever, knob, pull & thumbpiece trims are available with wide range of functions.
- Cylinder:** All exit devices are sold less cylinder. See cylinders in our Corbin-Russwin Lock Section.
- Warranty:** 3 year limited.
- ANSI:** Meets ANSI A156.3 Type 3, Grade 1. Meets A117.1 Accessibility Code.
- Federal:** Meets FF-H-1820.
- UL/cUL:** All devices listed for safety as panic hardware; devices comply with UL305 standard for panic hardware. 3 hour fire rated devices listed as fire exit hardware for A label and lesser class 4' x 8' single or 8' x 8' double doors; UL symbol on active case cover indicates listing.

STRIKES FOR MORTISE EXIT DEVICES

Mortise Strike

Standard on ED5600 and ED5600A devices. Non-handed, ANSI curved lip. 4 7/8" x 1 1/4" x 1 1/4" lip to center. Black finish. To order separately, specify 650L657020.

Open Back Strike

Optional for use with ED5600 x ED5400 devices on a pair of doors. Non-handed, 4 7/8" x 1 1/4". Black finish. To order separately, specify door thickness and curved or straight lip.

Mortise Strike

Optional for use with ED5600 and ED5600A devices on 2" and 2 1/4" tick doors. Handed, ANSI curved lip, 4 7/8" x 1 1/4" x 1 1/2" lip to center. Black finish. To order separately, specify 656L677024 for RH and 656L687024 for LH.

ANSI Wrought Strike Box

Optional for use with ED5600 & ED5600A devices. To order with exit device, specify M17. to order separately, specify 120F76-8.

48"	W048

How to Order

Mortise Cylinder Used with Mortise Exit Devices

1000 is standard cylinder, 1010 is high security cylinder.

To Order this cylinder specify: 1000 + Length + Cam + Keyway + Finish

For example: 1000-118-A01 59A1 626

Lengths: Standard is 118 (1 1/8"). Factory available lengths are: 114, 138, 112, 158, 134, 200 and 214.

Cams: See illustrations below for standard cams. Other cams available, please call.

Keyways: Stock Keyways are 59A1, 59A2, 59B1, 59B2, 59C1, 59C2, 59D1, 59D2, 60, D1 and L4. Other keyways are available as Factory Order Only (F.O.O); please call for availability. Allow 4-6 weeks for delivery on F.O.O. Items.

Finishes: Standard stock finish is 626. Factory available finishes are: 605, 606, 611, 612, 613, 618, 619, 622, 625 and 626

Standard Cams for Mortise Exit Device Cylinders

A02 Part 147F77 Reg. Part 334F13 IC

Model/Description: Classroom (55) function & inside of vestibule (42) function steel case mortise locks. Most exit device trims. NOT for master ring mortise cylinders.

Miscellaneous Options

Description	Specify
ANSI wrought strike box	M17
Knurling outside only (trim side)	M21
Abrasive coat outside & inside	M23
Abrasive coat inside only	M24
Abrasive coat outside only	M25
Less Dogging	M51
Cylinder Dogging (not available on fire rated devices)	M52
Sex nuts and bolts (SNBs)	M54
Narrow active case cover	M56
Mullion stabilizer	M57
Shim kit (vision light)	M58

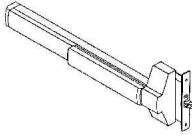

Finish

Description	Specify
US3 Bright Brass	605
US4 Satin Brass	606
US9 Bright Bronze	611
US10 Satin Bronze	612
US10B Dark Oxidized Satin Bronze, Oil-Rubbed	613
US26 Bright Chromium Plated	625
US26D Satin Chromium Plated	626
US32 Bright Stainless Steel	629
US32D Satin Stainless Steel	630

EXIT DEVICE, CORBIN-RUSSWIN, MORTISE

CORBIN MORTISE EXIT DEVICE, ED5600

Lever Trim, 30" - 36" Door

**SERIES ED5600
FOR LATCHSET, CLASSROOM AND DUMMY FUNCTIONS ONLY
STATE HAND**

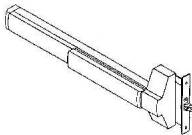

Devices are listed as exit only. Order trim and cylinders separately.

For example: A set of ED5600 x LM955 trim 630 finish
order 1 ea. ED5600 W036 630 exit device
1 ea. LM955 630 trim
1 ea. 1000-118-A02 (Keyway) 626

Stocked 613 (US10B) and 630 (US32D). Other finishes available F.O.O. See ED5657 below for nightlatch function.

VON DUPRIN MORTISE EXIT DEVICES

Key Locks or Unlocks Lever

Standard Lever Operation (08): key locks and unlocks lever. Standard trim is 994L Breakaway™ Lever Trim, furnished less cylinder. The breakaway design allows the lever to break away and drop into a "down" position when abused, discouraging further abuse and protecting its internal parts. Further, it can be easily reset to its operating position by a simple uplift motion. For complete description of device, see exit only 9975 device above.

COORDINATORS

DOOR CONTROLS COORDINATOR

600 Series Coordinator

Non-handed, fully automatic coordinating devices for sequential closing of paired doors with or without astragal. Prevents active leaf from closing ahead of inactive leaf-eliminates problems with handed components in opening. Steel construction throughout. Designed and approved for labeled fire doors. Prime coated. After job-site finishing to match frame the installed unit blends in and appears to become part of the header. Minimum 1 1/8" stop required. See **Weatherstrip** section for Pemko 357SPxSNB Astragal.

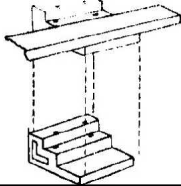

Specify coordinator as following example: 672 for 72" opening.
696 for 96" opening

KROY ADA REGULATORY SIGNS

Kroy's ADA Regulatory signs meet new Federal regulations for the visually impaired. Kroy's ADA Regulatory Signs comply with ADA code for raised text and pictograms. Grade 2 Braille and contrasting colors. The raised image sign consists of a non-glare; matte-finish plastic injection-molded plate with a 1/32" raised image relief area. Kroy's high-quality ADA Regulatory Signs are durable, ready to use and easy to wall-mount. Businesses and organizations are assured of taking the necessary steps toward ADA compliance with Kroy's ADA Regulatory Signs. Adhesive Mount. Color - Blue/White. **ISA** = International Symbol of Accessibility. F.O.O. Items - Allow 2 weeks for delivery.
