**FRANKLIN TITEBOND EXTEND WOOD GLUE**

Slower setting version of Titebond Original Wood Glue. It offers superior performance in a broad range of applications, including edge and face gluing. It is particularly useful in complex operations such as curved railings and other assemblies that require more time to align. Extend Wood Glue is not intended for exterior use or where moisture is likely. For exterior applications use Titebond II Premium Wood Glue or Titebond II Extend. It is recommended that Titebond Extend Wood Glue not be stored for extended periods at temperatures lower than 40° F.

BHS#	DESCRIPTION	U/M	BOX	RETAIL
118-906	FRKGLU 9106 GAL EXTENDED DRY TIME WD GLUE	ea	2	\$33.37

**FRANKLIN TITEBOND II EXTEND WOOD GLUE**

Combines weatherproof performance (ANSI TypeII water-resistance) with a slower speed of set. It is ideal for exterior applications that involve more complex assemblies. It also provides a translucent glue line, offers excellent sandability and is unaffected by finishes. Do not use for joints below the waterline or continuous submersion. Freezing may not affect the function of the product but may cause it to thicken. Agitation should restore product to original form. Because of variances in the surface of treated lumber, it is a good idea to test for adhesion.

BHS#	DESCRIPTION	U/M	BOX	RETAIL
118-4136	FRKGLU 4136 GAL T/B II EXTENDED DRY TIME WD GLUE	ea	2	\$39.39

**EDGE BANDING**

**EDGEMATE PRODUCTS EDGE BANDING**

**Real Wood Veneer - Hot Melt Pre-glued**

**Wood Veneer Edging.** Individually Packaged. Is available with a resin impregnated backer sheet that is designed to facilitate three very important functions. First, to help stabilize the wood, preventing splitting, tearing, and checking. Second, to provide a superior bonding surface. Third, to act as a barrier between the finishing materials and the glue line. This same backer sheet applied to the wood veneer in a continuous piece provides the joints with support and strength thus producing uniform, close fitting butt joints or finger joints.

**Decimal Conversion:** 1/2" = .500, 3/4" = .750, 13/16" = .812, 7/8" = .875.

**SLIDE-CO DRY FILM LUBRICANT**

RD-50 is a spray-on aerosol formulated with the most advanced PTFE Technology from Dupont. The dry film lubricant contains no silicone or oil and offers a great alternative to wax or silicone which attract dirt and dust. RD-50 dry film is thermally stable up to 500° F. It is non-flammable, offering enough durability to lubricate high friction surfaces. It protects metallic surfaces from corrosion caused by moisture and oxygen, prevents rusting, sprays on dry, is clear in color, will not stain or discolor any surface and is odorless. Good for many industrial and woodworking purposes.

BHS#	DESCRIPTION	U/M	BOX	RETAIL

**ROT CONTROL SYSTEMS**

**SYSTEM 3 ROTFIX**

**RotFix Kit**

Easy to use, low viscosity epoxy wood restoration system for the consolidation of rotted, deteriorated, and dried out or spongy wood. Penetrates deep into deteriorated wood for maximum strength. For interior or exterior use, it creates a strong, water-resistant base for repair and restoration. Use with SculpWood for permanent structural repair of severely damaged wood. 24 oz. kit includes unique measuring/application bottle so you can accurately measure, mix and apply in batches from two fluid ounces to seven fluid ounces.

	<b>BHS#</b>	<b>DESCRIPTION</b>	<b>U/M</b>	<b>BOX</b>	<b>RETAIL</b>
	782-153906	SYSTEM3 1500K40 ROTFIX KIT 24oz	ea	6	\$35.99

**SYSTEM 3 ENDROT**

**EndRot Kit**

The combination of epoxy and wood fungicides is called the EndRot System. For the wood fungicide System Three chose a borate-type preservative because the borates are lethal to wood destroying organisms, but almost harmless to humans, plants and animals. There are two forms of borate preservatives in the EndRot System. Board Defense, a water-soluble powder, kills any actively growing rot fungus or wood destroying insects and Impel Rods, a solid, concentrated sodium borate, that stays in the wood long-term to keep rot from coming back. This revolutionary EndRot System provides a permanent, complete cure for both the cause and the symptoms of wood rot deterioration. Now offered is a convenient EndRot Kit that contains enough material to complete a typical repair to a window or door severely damaged by rot, weather, and sun. For larger or multiple repairs, RotFix, SculpWood, Board Defense and Impel Rods are available individually, in larger sizes. **EndRot Kit Contents:** 6 ea. IMPEL® Rods, 2 oz. Board Defense®, 2 oz. RotFix® Resin, 1 oz. RotFix Hardener, 8 oz. SculpWood® Resin, 8 oz. SculpWood Hardener, 2 pair Gloves, and 1 ea. Literature Pack.

**DUST BARRIER**

**ZIPWALL DUST BARRIER**

**Carrybag**

Holds six 12 foot poles with jacks attached to poles, or six 20 foot poles with jacks unattached to poles.

<i><b>BHS#</b></i>	<i><b>DESCRIPTION</b></i>	<i><b>U/M</b></i>	<i><b>BOX</b></i>	<i><b>RETAIL</b></i>
427-129268	ZIPWALL CB1 CARRY BAG	ea	1	\$60.24

**Foam Rails**

Once a dust barrier with ZipWall poles is erected, this five-foot bar, with its soft, spongy edge is attached to a ZipWall pole and jack and lifted into place pressing the plastic sheet to the ceiling. This creates an extremely tight seal without the need for tape.
